Scoot SMART, LONGHORNS

Electric scooters are a fast and popular way to get around campus. Follow these tips to keep yourself and everyone else safe:

Register your scooter
Quick, free registration helps return lost or stolen scooters and lets PTS contact you if needed.

Park properly
Use designated areas or bike racks. Keep sidewalks, ramps, entrances, and ADA access points clear.

Keep scooters out of buildings
E-bikes, e-scooters, and skateboards are not allowed inside campus buildings.

Use bike lanes
Scooters should stay on designated paths, not sidewalks.

Ride responsibly
Follow traffic laws, ride at safe speeds, stop at stop signs, and yield to pedestrians.

Obey safety zones
Respect speed-governed areas and dismount zones to reduce congestion and improve safety.

Scooters help bridge the last mile of a commute, but safe and responsible use keeps campus accessible for everyone.
